

## **KING FSS** **Freestanding Sign System**

KING FSS is an elegant, flexible and versatile information display system. The simple, yet striking design focuses attention on the message, not the structure. An extruded anodized aluminum base captures two tempered glass panels, in which the display medium is sandwiched.

### **BENEFITS**

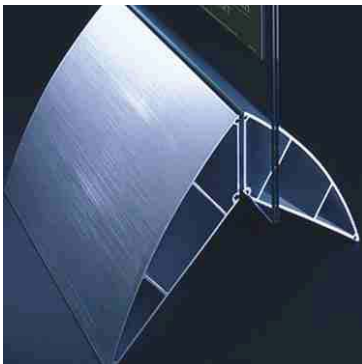

- Easy to use
- Elegant, striking design
- Quick setup
- Cost efficient
- Durable
- Portable

### **FEATURES**

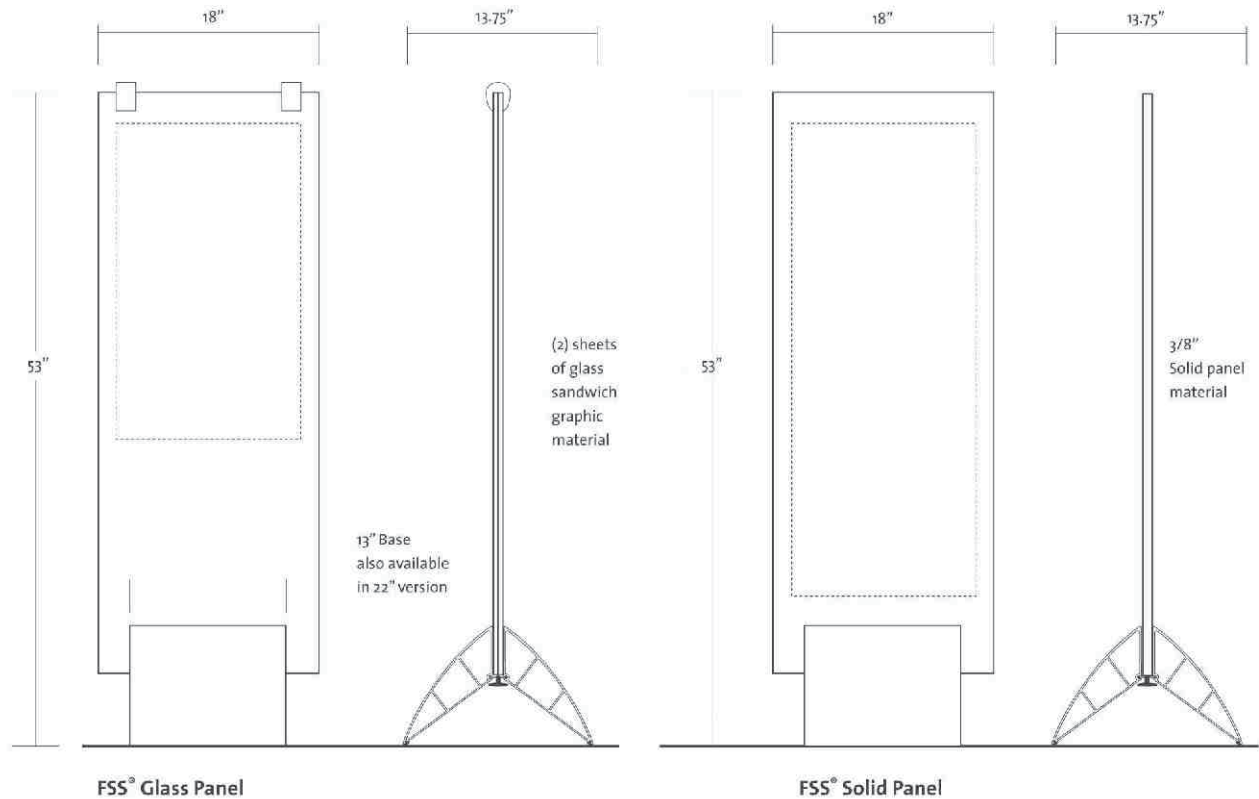

- Standard 13" base with 18"W x 47"H glass
- Standard 22" base with 27" W x 50"H glass
- Standard finishes in either natural or black anodized aluminum
- Custom sizes, colors and finishes available
- Single or double sided messages

### **APPLICATIONS**

- Event/exhibit material
- Advertising
- Menu board
- Brand awareness
- Poster display
- Wayfinding
